

PSEG Long Island sponsors this exciting FREE environmental program with lessons and a challenge!

Students will learn why and how we must conserve the environment and the importance of energy efficiency. As young leaders, they will advocate for saving our environment by creating a video PSA to enter a regional challenge and share what they have learned.

Details:

- Program begins February 2023
- Grades 4-8 in Nassau, Suffolk and the Rockaways
- Standards-aligned curriculum: Three lessons and a PSA Production Process Guide
- A PSA Video Student Challenge. A chance to win prizes and school recognition.
- Project Based Learning activity that incorporates New York State learning practices for Science and Social Studies.
